

Offer your child a world of opportunity.

If you are considering a move to Grenoble and are looking for a sound English-language based education for your child, look no further. ASG offers a unique opportunity to middle and high-school students in Grenoble with its core curriculum taught in English and based on the American secondary school curriculum.

The American School of Grenoble is a non-profit college preparatory school. Working in partnership with the public French education authorities and accredited by the Council of International Schools (CIS) <http://www.cois.org/>, we serve the needs of students in grades 6–12 (ages 10–18 yrs.) We welcome students from a wide range of international backgrounds.

ASG is located within a modern public secondary school, the *Cité Scolaire Internationale*. We benefit from the high quality facilities provided by our host school and from the great diversity of students it welcomes.

We currently offer the American High School Diploma based on the curriculum from the State of California as well as SAT preparation, PSAT and selected AP courses. We strive to offer custom, internationally based curriculum and learning programs.

Broaden your child's international experience.

In a world where global barriers are rapidly diminishing, the opportunities for your child to acquire key skills through an internationally based education will ensure a real advantage. We provide an immersion experience in French secondary education as well as French language courses and offer some classes in our host school's international sections – Arabic, German, Spanish, Italian, and Portuguese. Our students come from a diverse range of international backgrounds and our curriculum reflects this.

Know that your child will be part of a close and caring community.

Individualized attention is one of our top priorities and strengths. We understand what it's like to move to and adapt to life in a foreign country, and with a dedicated staff from a wide range of international backgrounds, we are sensitive to the intercultural adaptation difficulties that students may encounter. We offer a strong student support and advisory program enabling smooth adaptation and flexible learning programs focusing on, and adapted to, each student's academic goals. Our low student-teacher ratios help foster a strong sense of community within our school.

ASG will help your child make the most out of his or her stay in Grenoble.

- *Core curriculum taught in English*
- *Accredited by the Council of International Schools*
- *Access to high quality facilities provided by our large host school*
- *Ratified and supported by the French public education authorities*

Conveniently based near downtown Grenoble with excellent public transportation links.

Grenoble is a dynamic and modern city with a total population of around 530,000 inhabitants. It boasts several universities and numerous professional schools of prestige, with an overall student population of 60,000, extensive and ever expanding research facilities, a vibrant lead in the European semiconductor, IT, high-tech and nanotech industries as well as a diverse and active expatriate community.

Surrounded by stunning alpine countryside with easy access to downhill, cross country and mountaineer skiing, rock climbing, hiking, mountain biking, paragliding and much more.

Grenoble is not far from Italy, Switzerland, and the Mediterranean coast and provides an ideal base for exploring Europe.
