Changes in family situation, frequent moves, family composition.	
Loss or illness of family member	
Cultural background, religious or specific cultural identity.	

Student name & date of birth: _____

External Assessments and Classwork

ASG uses external assessments and classwork to help us place students in the classes they need and to help us refine our curriculum planning each school year.

1. Please provide recent results from ***at least one*** of the following external assessments:

- US State standardized test results for the current school year (eg. SAT, STAR, NYSTP, MCAS etc)
- International School's Assessments (ISA) results for the current school year
- Evaluation des competences (French system tests)

In cases where the student's first language is not English the ASG may request additional results from the TOEFL "Junior" test results from within the past three months.

If you need information about any of these tests please contact the school.

2. Please scan/copy 2 examples of your child's school work this year that demonstrates his/her current literacy skills in English and Math (one in each subject).

Special Educational Needs

Parents are required to provide the school with any previous diagnoses, reports, medication, etc related to difficulties the child encounters. The school reserves the right to discontinue enrollment where there has been a failure to provide this information.

Early identification, assessment and intervention are key to meeting the needs of the individual student. If a student already in the school not previously diagnosed with special educational needs presents difficulties in accessing the curriculum for reasons which teaching staff believe may be linked to some form of special educational needs, the school may recommend specialized testing. The family may be asked to fund specialist assistance or testing.

The school reserves the right to refuse admission to a student if:

- It is determined that the student would not benefit educationally from the school's academic program, even if benefiting from the school's support systems.
- Any special educational needs required by the student cannot be met by the school.
- A student's parents/guardians fail to provide information during the application process about their child's special educational needs or an accurate behavioural history.

Who is financially responsible for the child's education? _____

I/we understand that the ASG school policies state that a student is not officially enrolled until tuition payments have been received by the school.

I/we understand that for children with special educational needs a fully updated medical report from a recognized specialist must be completed and mailed in promptly- and that I/we take financial responsibility for any additional support necessary to meet these special needs.

I/we understand that ASG may provide some academic tutoring and/or English language support for my child but that I may be asked to take financial responsibility for additional support as needed.

I/we understand that all information regarding a student's application will be treated with confidentiality.

I/we assert that the information provided is true and complete.

Signature of Parent/Guardian

Date of Application

Signature of Parent/Guardian

Date of Application

Student name & date of birth: _____

Do you agree to be contacted by the ASG Parent Association? YES / NO

As a parent/guardian, how would you like to be involved in ASG activities?
